The German Association of Women Engineers
Project MINT Refugees/Migrants – Women/Girls
(MINT FM-FM)

**Invitation to migrants and refugee women and girls
to attend the Girls' Day activity
in their towns on 28.04.2016**

Dear girls and young women,

Would you like to get an idea how a technical or natural scientific job works? Would you like to examine whether these jobs suit you or know more about the workaday life of a technical firm or college?

Then get along with us in Girls' Day activity. On this day you can, as other girls and young women all over Germany, attend a technical company, college or university to learn more about a technical education or job. You can get familiar with the workaday life of these colleges or firms and put your abilities to the test there. You can also receive direct answers to your questions and socialize yourself with responsible persons there.

We would like to deploy ourselves to improve the migrants and refugee women and girls' educational and career entry opportunities in technical and natural scientific fields. We are the coordinators of the project MINT Refugees/Migrants Women/Girls of The German Association of Women Engineers. Therefore, right now we strongly focus on organizing a joint action among these women and girls in their towns in Germany on Girls' Day (28.04.2016).

We would like to provide you with the necessary places at technical educational institutes / colleges or companies in your town on 28.04.2016 and explain you how to get there. Please contact us, call us or send us a mail. We can certainly help you.

Contact person in North Rhine-Westphalia: Mrs. Soheila Sattari
Mail address: a.sattari@goal-epmts.de; mobile: 0178-6357200.

Contact person in Darmstadt: Mrs. Kira Stein
